ANATOMY OF AI AGENTS 2026

www.arianprabowo.com · 10-Layer Agent Stack + External RAG/Multimodal (arXiv:2606.24937)

What actually runs under an AI agent in 2026? A 10-layer left-to-right stack:
Silicon (L1) → Env/PyTorch (L2) → Data (L3) → Pretrain (L4) → SFT (L5) →
RLVR (L6) → Test-Time (L7) → MCP (L8) → Harness^2 (L9) → Swarms (L10) + RAG/MM.

① TRACE LEFT → RIGHT: Follow Core Layers 1 → 10
② SEPARATE ORGANISM: Far-right = RAG & Multimodal
③ HARDEN PROD: Audit FAILURE MODES row at bottom

*Synthesized from Haggai Roitman's 'The Hitchhiker's Guide to Agentic AI: From Foundations to Systems' (arXiv:2606.24937, v1.4, June 2026) + 2026 systems tooling. Companion to AI Skill Tree 2026 & AI Ladder Evolution by Arian Prabowo · Updated: 2026-11-08 00:56:48 AEDT (UTC+11:00)
